## **REPORT TO HEALTH OFFICER TOWN OF BENTON, N. H. FOR YEAR ENDING DECEMBER 31, 1965**

Home visits were made by the State Public Health Nurse for follow up on cases. The Infants and Pre-school children of Benton were also included in the Well Child Conference at Woodsville for physical examinations and immunization against whooping cough, diphtheria, tetanus, polio and smallpox.

In the schools, children in grades 1, 4, 8 and 12 were given the opportunity to receive a booster shot for diphtheria and tetanus. They were also tested for tuberculosis. These same grades are done every year so that the children can be checked every 3 to 4 years.

This is the year when "Medicare" will come into effect. Starting July 1, 1966 home nursing will be paid for by Medicare for those who are covered, are over 65 years of age and are in need of nursing care in the home after discharge from the hospital. With Medicare it is anticipated that there will be a shortage of

hospital beds making hospital stays shorter and requiring nursing care at home. For this reason we are urging the town fathers to start planning to provide this type of service, and to discuss means for hiring a local Public Health Nurse. The possibility exists of combining small towns to be serviced by one nurse, e.g. Woodsville, Monroe, Bath, Benton, or Haverhill, Pike and Benton Flats. Some of your local citizens have already showed interest in this project. This means a cooperative effort from each town. It is feasible and would be less costly. Health Education, Prevention of Disease, Care of the Sick and Rehabilitation of the Aged are all nursing services needed in each and every town. The State Nurse covers 15 towns so would not be able to do this work. The office of Economic Opportunity, with headquarters in the Opera Block, Woodsville, may be able to assist with funds to start this project.

Tax money is used for schools, road maintenance, police and fire protection. Healthy citizens should be even more important, because without health we cannot function.

My sincere thanks for the cooperation received.

Respectfully submitted,

LORETTA B. RUSSELL, R.N.

## AUDITOR'S CERTIFICATE

This is to certify that I have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Benton of which the above is a true summary for the fiscal year ending June 30, 1965 and find them correct in all respects.

IONA BOUTIN

## 1965-1966

As your superintendent approaches the mid-point in his first year of tenure, he has observed many problems facing education in this area but the one single greatest dilemma is: "How are we going to continue supporting public schools with costs rising at such a rapid rate?" No one has the answer but one fact we all recognize—we have children and they must be educated to live in an atomic age that was inconceivable twenty years ago.

Our educational responsibilities are only beginning when we consider the rate at which man acquires knowledge. It is estimated that knowledge doubled for the first time at about 1700; again around 1900; the third doubling occurred about 1950; and the fourth in 1960. If it is true that we are now gathering new knowledge at such an astounding pace that we are doubling the world's gross supply of information every ten years, then the educational process may soon find itself under overwhelming stress. New ways of learning must be rapidly developed and installed in the schools if we are to maintain an intellectual balance between the acquisition and absorption of new knowledge.

Another factor which is often overlooked by many of us is the influence that technology has had on our everyday life and especially education. The technology of the 1960's has created a society which is far from stable. Spectacular breakthroughs in science and computer technology have generated an atmosphere of rapid and accelerating change. Evidence of a changing society may be seen at every turn. Even the relatively new concept of automation is giving way to a newer process called cybernation.

In order for all of us to become aware of the why's and wherefore's of financing education, we must become

aware of the magnitude of the extravagant changes which are taking place in society. Our children must compete intellectually and as citizens in a society that changes day to day. To keep pace, our educational system must continue to improve in the future. All of this will require more thinking and planning on the part of the educational profession and more money from the citizenry. There are two ways to get to the top of an oak tree. One is to climb it, the other is to sit on an acorn.

May I take this opportunity to thank the school board and citizenry of Benton for their fine support during this first year.

Respectfully submitted,

NORMAN H. MULLEN

## SUPERVISORY UNION NO. 23 REPORT OF SUPERINTENDENT'S SALARY

Section 5, Chapter 243, Laws of 1953 of the State of New Hampshire, requires that school district annual reports show the total amount paid to the superintendent.

One-half of the supervisory union expenses is prorated among the several school districts of the union on the basis of adjusted valuation. One-half is prorated on the basis of average daily membership in the schools for the previous school year ending June 30. The Superintendent of Supervisory Union #23, during the 1965-1966 school year, will receive a salary of \$10,000.00 which is made up as follows: \$3,750.00 to be paid by the State Department of Education and \$6,250.00 pro-rated among the several school districts. Allowance of \$1,500.00 for travel within the Union is also pro-rated as stated above.

The table below shows the proration of salary and travel charged to each school district.

District	Salary	Travel
Bath	\$ 257.50	\$ 61.80
Benton	53.75	12.90
Haverhill	1,154.37	277.05
Lincoln-Woodstock	1,881.25	451.50
Monroe	1,158.76	278.10

## **Program of the White Mountains Region Association 1965 (28th year)**

Printed and distributed over 180,000 folders and booklets promoting the White Mountains Region.

Received 6,987 inquiries in the office which were answered promptly with a kit of folders or by personal letters.

Sent over 22,471 letters and 33,317 individual folders by mail. The balance was distributed by freight or by automobile.

Wrote 25 news releases for use in the local media and four news letters to our members. Wrote one article for N. H. Profiles on "Industrial Conway" and helped prepare other articles for use outside of the region.

Supported the 4-H awards program to encourage the role of agriculture and awarded Mrs. George Clement of Lisbon the "Outstanding Farm Wife of the year."

Have sent a weekly bulletin of lodging inquiries to member inn-keepers who subscribed for them and a monthly real estate bulletin to the member real estate dealers.

Sent out a packet of ski area and lodging folders in response to inquiries on skiing.

Presently we are revising our White Mountains Map which lists nearly 200 points of interest in our region, which was designed to keep the tourists with us a little longer. Information booth people tell us it is very popular with tourists. The new edition will be printed this winter.

Worked in cooperation and attended meetings with the White Mountains Recreation Association, Coos County Rural Areas Development Committee, Coos County Planning Committee, Carroll County Rural Areas Development Committee, N. H. Ski Areas Operators Association, White Mountains Region Industrial Council, the Coos, Carroll and Grafton Counties Community Action Program. The association with these many groups has been mutually helpful in developing new projects and programs in the north country.
